

NEW: The interWays Instant Messenger is online!

Now you can chat and communicate with other interWays or Yahoo! users. This is very easy:

- Directly **via Webmail** (<https://ssl.interways.de>), just click on IM
- Windows Clients: all Jabber clients, e.g. Pidgin ([Download here](#)), and many others...
- Apple Mac Clients: all Jabber clients, e.g. Apple **iChat**, Adium, ...
- Linux: all Jabber clients
- **iPhone**: Jabber Apps, e.g. IM+, Fring, ...
- other mobile devices: Jabber clients are available for most smartphones/mobile phones

Settings:

- Server type: Jabber (XMPP)
- Server: ssl.interways.de
- Encryption/SSL: Ein
- User name: your interWaysMAIL address
- Password: your interWaysMAIL password
