

You don't need any additional software to sync your Palm Pre with interWaysMAIL. Your Palm Pre comes ready to use our service!

Settings for mobile sync:

Add a sync account (Exchange ActiveSync) with these settings:

- Server: ssl.interways.de
- SSL Encryption: On
- Domain: interwaysmail.com (or other domain assigned to you by us)
- User Name: yourname (before the @interwaysmail.com)
- Password: your interWaysMAIL password

Some devices may delete contacts and calendar entries previously stored locally on the device, so please make certain to back them up (or write them down) before setting up a sync account.
