

To synchronise Bookmarks with multiple computers please follow these instructions:

- Open Firefox on the computer you wish to export the bookmarks from.
- Open this link: <https://addons.mozilla.org/en-US/firefox/addon/8426>
- Download the Syncplaces Add-on (Attention: Beta phase, currently undergoing testing!); you might have to register with Mozilla Firefox before downloading. No warranty for this external program!
- After installing the Add-on, click on Bookmarks-->Syncplaces-Settings-->Options and enter this information:
 - Protocol: https
 - Server Name: ssl.interways.de/dav/your-interWaysMAIL-address
 - User Name: your-interWaysMAIL-address
 - Password: your password
- Now you can export your bookmarks by going to Bookmarks-->Syncplaces-Settings and clicking on "Export bookmarks".
- Done!

On the **second computer** please proceed accordingly, but click on "Import bookmarks" as the last step. Now you have synchronised bookmarks on all computers.
